

PREVENT INCIDENTS BEFORE THEY HAPPEN

Safety Services

OnPoint becomes your partner for comprehensive safety oversight. Our certified safety professionals integrate into your operations on-site, managing day-to-day safety activities, coordinating contractors, and preventing incidents so your team can focus on productivity. With 35+ years of experience across refineries, manufacturing, and high-tech infrastructure, we provide both strategic safety leadership and hands-on execution support.

+ Key Benefits

Prevent Costly Incidents

One incident can cost hundreds of thousands in downtime. One OSHA citation brings months of scrutiny. Our on-site professionals identify and mitigate hazards before they cause incidents.

Manage 15-20+ Contractors Simultaneously

Expert contractor coordination ensures every contractor meets your safety standards through prequalification, orientation, oversight, and performance tracking.

Streamline Permit-to-Work

Expert permit writers and advisors get work permitted faster without cutting corners. Eliminate permit bottlenecks that delay critical path work.

Scalable Safety Teams

Deploy safety professionals scaled to match your project needs. We've successfully managed safety on thousands of industrial projects across every sector.

Certified & Degreed Professionals

Our team includes OSHA 30-hour and 500-hour trained professionals, CSP and CHST certified advisors, and Certified Industrial Hygienists.

+ Service Offerings

On-Site Safety Management

Dedicated safety advisors manage permits, conduct inspections, and coordinate contractors daily

Safety Program Development

PSM support, contractor management systems, safety culture initiatives, incident investigation

Industrial Hygiene

Exposure assessments, air quality monitoring, noise studies, hazard control strategies

Standby Rescue Services

Professional rescue teams, specialized equipment, immediate response for permit-required confined spaces

Contractor Safety Coordination

Prequalification, orientation, oversight, and performance tracking for all contractors

Regulatory Compliance Support

OSHA and EPA compliance, audit preparation, gap assessments, corrective action support

Emergency Response Planning

Emergency action plans, fire prevention plans, spill response, emergency drills

Safety Attendant Services

Fire watch, bottle watch, confined space observation, flagging, general labor support

Permit-to-Work Management

Hot work, confined space, line breaking, excavation, and energized work permits

Safety Training & Competency

Site-specific training, OSHA certification courses, toolbox talks, safety meetings

WatchPoint Remote Monitoring

Remote monitoring for up to 12 confined spaces, real-time atmospheric tracking, OSHA compliance

Industries We Serve

Energy & Utilities

Refineries, petrochemical plants, power generation, pulp & paper mills

Manufacturing & Materials

Steel production, automotive assembly, pharmaceutical manufacturing

High-Tech Infrastructure

Data centers, semiconductor fabs, large-scale construction projects

Construction

General contractors, specialty contractors

OnPoint.

Ready to **elevate** your safety program?

Schedule a comprehensive safety assessment. We'll evaluate your current programs and develop a customized plan to improve safety performance.
